

# cloud connect

*Flexible, scalable, virtual connections  
to multiple cloud providers*

- ▶ Cloud Connect supports multiple virtual connections to cloud providers such as AWS, Azure, Google, and IBM Cloud
- ▶ Deliver your mission-critical apps from the cloud with greater uptime and responsiveness using dedicated connections
- ▶ Customers can connect from anywhere on VERNet's network
- ▶ Save money by removing IP transit costs
- ▶ Layer 2 & Layer 3 connections available
- ▶ Scale your bandwidth up as your business needs grow

VERNet is Victoria's high bandwidth network carrier - connecting research institutes, educational facilities, medical research facilities, hospitals and Government organisations throughout the state.
